Preface	9
Chapter 1	
The Thy Archaeological Project	13
Introduction	13
Pollen analysis	13
Field surveys	14
Survey findings	14
Sites	15
Developments in population density	18
Site distribution	18
Early Bronze Age sites at Sønderhå	19
Chapter 2	
Thy and the outside world in the Bronze Age	25
The setting	25
The Bronze Age farmstead	33
Economy	55
Along and across the North Sea	64
Land-use in a changing environment	66
Bronze Age contacts in the North Sea region	67
Trade and shipping	83
Thy and the world around: Some conclusions	86
Cumulative probability distributions – what can they tell us?	90
Chapter 3	
The rise and fall of Bronze Age societies in Thy, northwest Jutland	107
Introduction: Theoretical model	107
The formation of a barrow landscape in 1500-1100 BC: Social and economic implications	108
The construction of farms and the domestic economy	114
The social organisation of society and the political economy	118
Conclusion: The tragedy of commoners	126

Chapter 4	
Bronze Age houses in Thy	133
Introduction	133
Distribution and date	133
Size and proportions of houses	135
Habitation units with a hearth and cooking pits	138
Habitation units as 'modules' in house construction	140
General traits in Bronze Age house construction in Thy	143
Identical house plans	146
 Chapter 5	
Bronze Age farms in Thy.	153
Introduction	153
Examples of possible Bronze Age farms	153
Outdoor working areas	158
Conclusion	158
 Chapter 6	
Animal pens at Bronze Age settlements in Thy: Ditches and post-built fences.	161
Introduction	161
Fences made of poles with thorns and other brushwood	175
Conclusion	176
Catalogue of enclosures and ditches in Thy	177
 Chapter 7	
Topography: The origin of the landscape in Thy and Vester Hanherred, processes and sediments	185
Mapping of the earlier geological formations	185
The Quaternary	186
The last 10,000 years – the Holocene	188
Radiocarbon dating of marine deposits in northern Thy	190
 Chapter 8	
Pollen analyses from lake, field and beach-ridge deposits in the vicinity of the Bronze Age settlement at Bjerre Enge, Thy.	193
Introduction	193
Pollen analyses from Bjerre Sø	194
Pollen analyses from a hollow by an arable field at Bjerre 4	204
Palaeoecological studies of beach-ridge deposits to the east of the settlement area	207
The influence of the Bjerre settlement on the development of the vegetation and the landscape	214
The contribution of the Bjerre studies to the vegetation history of Thy	217
Conclusions	218

Chapter 9	
Pollen analyses from the Bjerre area	223
Analyses	223
Bronze Age vegetation at Bjerre based on pollen analysis	230
Chapter 10	
Resource problems in a treeless cultural landscape	231
Introduction	231
Previous investigations	231
Investigations of the building timbers	231
Analyses of charcoal from Bjerre 6 and Bjerre 7	236
Other charcoal identifications	239
Discussion	239
Conclusion	248
About radiocarbon dates in appendices A-D	251
Appendix A	252
Appendix B	264
Appendix C	270
Appendix D	278

Contents

Chapter 11

Bjerre Enge – landscape, environment and settlement during the Bronze Age	11
Between land and sea	11
Bjerre Sø and Bjerre Enge	13
The timeframe for settlement at Bjerre Enge	17
Stratigraphy and sand drift	17
Peat formation and paludification at Bjerre Enge around 800 BC	21
Bronze Age settlement at Bjerre Enge	24
Traces of cultivation at Bjerre Enge	33
Bronze Age settlement at Bjerre Enge: habitation area, territory and resource areas	36
Burial mounds and settlement at Bjerre Enge	37
Bjerre in a regional perspective	41
Conclusion	47

Chapter 12

Bjerre 2	55
Houses and associated structures	57
Post structures and ditches at Bjerre 2	71
Ard marks and cattle hoof prints	75
Settlement structure	76

Chapter 13

Bjerre 3	79
History	79
Topography and stratigraphy	79
State of preservation.	80
Excavation strategy	80
Houses	81
Other culture layers at Bjerre 3	87
Other structures at Bjerre 3	87
Flint workshops at Bjerre 3	87

Chapter 14	
Bjerre 6	89
Introduction	89
Houses and other structures	93
Midden area	106
Features outside the houses	107
Settlement structure	107
 Chapter 15	
Bjerre 7	111
Introduction	111
Ard marks at the top of the culture layer	117
Structures below upper ard marks	118
Ard marks beneath the settlement	129
Settlement structure	130
 Chapter 16	
Bjerre 4 – settlement, cemetery and field system	133
Introduction	133
Bjerre 4A	134
Bjerre 4B	138
The field system	138
Conclusion	148
 Chapter 17	
Results from trial excavations in Bjerre Enge	151
Bjerre 1	151
Bjerre 5A, 5B and 5C	155
Bjerre 8 and 9	157
Bjerre 10A-B and 11	158
Bjerre 12	159
Bjerre 13	159
Bjerre 14	160
Bjerre 15	160
 Chapter 18	
Pottery from the Early and Late Bronze Age, Bjerre 1-13	161
The Early and Late Bronze Age pottery from Bjerre	167
Technical observations, Early Bronze Age and Late Bronze Age	171
Vessel forms	176
Vessel forms from the Early Bronze Age	178
Vessel forms in the Late Bronze Age	205
Distribution of Early and Late Bronze Age vessels	221
Use of vessels in the Early Bronze Age	235

Conclusion	240
Catalogue of pottery from Bjerre illustrated by drawings in chapter 18	245
Bjerre 1	245
Bjerre 2	245
Bjerre 3	247
Bjerre 4A	248
Bjerre 6	249
Bjerre 7	251
Bjerre 8	253
Bjerre miscellaneous	253
 Chapter 19	
On the provenance of the pottery from Bjerre	255
Introduction	255
Sample preparation and measuring technique	256
Comparison with regional sites – Sundby, Legaard and Egshvile	262
 Chapter 20	
The use of pottery vessels	265
Introduction	265
Sampling	266
Analytical techniques	267
Methods	267
Interpretation	269
Results	269
Discussion	270
 Chapter 21	
Bronze Age flint-working at Bjerre, Thy.	281
Introduction	281
Typological profile	284
Non-flint stone tool inventory	303
Technological profile – the Early Bronze Age inventories	307
Technological profile – Late Bronze Age Bjerre 7	320
Raw material economy	322
Find context and spatial patterning	336
Discussion	338
 Chapter 22	
Functional analysis of stone tools from Early Bronze Age Bjerre.	349
Introduction	349
The archaeological assemblage	349
Methodology	353
Results of the analyses and discussion	354
Conclusions and applications	361

Chapter 23	
Blade knives and strike-a-lights from Bjerre 7: A functional study of two special implements	365
Background	365
Retouched blade knives	365
Strike-a-lights	369
Concluding remarks	371
Chapter 24	
Amber finds from the Bronze Age of Thy	375
Introduction	375
Bjerre 6, an Early Bronze Age house	375
Bjerre 7, a Late Bronze Age house	378
Other Bronze Age sites with amber finds	381
Amber collection and export during the Bronze Age of Thy	382
Conclusion	383
How much amber?	385
Chapter 25	
Bronze Age agriculture, land use and vegetation at Bjerre Enge based on the results of archaeobotanical analyses.	387
Introduction	387
Plant macrofossil analysis	388
A comparison of the Bjerre sites	403
Conclusion	408
Tables	412
Chapter 26	
Were the Bronze Age fields at Bjerre 4 manured?.....	459
Introduction	459
Fieldwork and analytical methods	459
Results	462
Discussion	462
Conclusion	467
Chapter 27	
Bronze Age animal husbandry: The faunal remains from Bjerre Enge	469
Introduction	469
The material	469
Cattle bones	470
Bones of other domesticated animals	471
Game mammals	472
Summary and discussion	472

Chapter 28	
The Bronze Age Settlement at Aas, eastern Thy, Denmark	477
Background	477
Topography	477
Archaeological history	477
The settlement structure at Aas	478
From Aas to eastern Thy – an attempt to test the models from Aas	495
 Chapter 29	
Legaard.	505
Introduction	505
History	505
Topography	506
Research strategy	506
The Bronze Age settlement	508
Discussion	518
Conclusion	528
Legaard house III	531
Sønderhå 5 – THY 2788	534
 Chapter 30	
Early Bronze Age pottery from Legaard.	539
Diagnostic sherds – Early Bronze Age	539
Vessel forms, sizes and type identifications	541
Dating with the aid of sherds	544
Vessel usage	545
Conclusion	546
 Chapter 31	
Archaeobotanical investigations based on charred material from Legaard	549
Introduction	549
Results	554
Conclusions	556
Summary	557
 Chapter 32	
Klostergård.	559
Two-aisled houses	560
Three-aisled houses	563
Parallels to the houses at Klostergård	568
Animal pens and enclosures	570
Ditches and dykes	574
Stone pile N501	575
The settlement at Klostergård	575
